Re: Opinion Survey

Dear Hammocks Resident,

The Hammocks Board has received several requests from Homeowners asking to replace their poured concrete driveways with pavers.

We are conducting this survey to determine how the residents of our community feel about allowing Homeowners to replace their concrete driveways with pavers "from a board approved set of styles/colors". Please note that this is simply a survey to seek your opinion. It is not a vote to take action. The board will consider taking action only after receiving your opinion.

This is a "YES" opinion. If your household believes (one vote per household) that approved pavers should be permitted on driveways in the Hammocks, send a "Yes" email by clicking yes2pavers@rwhoa.org.

This is a "NO" opinion. If your household believes (one vote per household) that approved pavers should not be permitted on driveways in the Hammocks, send a "No" email by clicking no2pavers@rwhoa.org.

Please click only one of the options above. Your response must be received by **March 12** to be included in the survey. One response per household, please. We will inform you of the results of the survey. We thank you for your participation.

The Hammocks HOA Board of Directors
